To whom it may concern,

Our company wanted to add a second location and expand into a new market. We contacted Horizon and met with them and provided some general guidelines. Horizon then found us a great location, handled the purchase of the site, and helped us obtain financing. They then helped design our building with great sensitivity to our needs and constructed the building without going over budget! Horizon made the entire process easy and we could not be more pleased with the results.

Bob Tobe, President

FLOOR360

Floor coverings, tile and all that is beautiful.
