Nucor Building Systems

**AUTHORIZED BUILDER**

a **NUCOR**<sup>®</sup> company

Horizon Construction Group, Inc. is proud to be an authorized Nucor Building Systems Builder. Nucor Building Systems, a division of Nucor Corporation, has been a leader in the design and manufacture of custom-engineered metal building systems for more than three decades.

By partnering with Nucor Building Systems, Horizon Construction Group, Inc. is able to offer our customers a wide array of building solutions that are custom designed to your specific needs, yet cost-effective, efficient, and faster to erect than conventional construction methods. Plus, Nucor Buildings Systems products are proudly made in the USA from steel that is over 70% recycled, so you can feel good about your choice to use a Nucor metal building.

As a member of the Metal Building Manufacturers Association and certified by the International Accreditation Service, Nucor Building Systems' manufacturing and engineering policies, practices, and procedures are audited annually. The IAS-AC472 accreditation process reviews raw materials, design specifications, software, building code compliance, and quality control procedures. The process assures the structural integrity and quality of your metal building.

Horizon Construction Group, Inc. is committed to providing our customers with the best possible products and services, and that's why we use Nucor Building Systems. For more information, visit their website at [www.nucorbuildingsystems.com](http://www.nucorbuildingsystems.com) [1].
