

Services

Integrated Services. Resourceful Solutions.

Horizon places a high standard on each client's project/property, regardless of size, and understands what it is to be an owner and investor. Horizon takes on each project/property as if it were their own giving it the care and respect it deserves. Our team will effectively listen to your needs and work diligently to maximize the returns anticipated.

Whether your project is design-bid, design-build, or design-assist, Horizon is capable of providing integrated services to benefit a variety of project types. Horizon's on-staff developers, project managers, engineers, and property management staff are all available to assist with various aspects of your project. Our shared experiences between three companies have created numerous success stories. We also document areas of change and improvement following each project allowing us to continually enhance our service delivery which maximizes project value.

Our extensive experience and resources within the development, construction, and property management industries allows us to assemble the best team for each job. Horizon employs resourceful thinking and team management on behalf of every project, whether it's amongst Horizon companies or with one of our qualified industry partners. We are proud to offer this unparalleled network of expertise and are confident that it will best serve your project.
