

Associated Training Services

Bristol, WI

Project Type: Office

Horizon's Role: Developer, General Contractor

Project Attributes: Wisconsin

This project includes approximately 18,000 square feet of education and office space to serve an expanding training center operation on the east side of Sun Prairie. Horizon assisted with site civil design, water quality and detention requirements, private well and septic design, building programming and construction oversight services. Horizon's early engagement with visioning, building program, site design and building design allowed the project owner to stay within budget and start the project quickly.
